ADDITIONAL INFORMATION

*Please see the district/school website to get specific information

For whom should your community provide in person learning? For School Administrators, Local Health Officers, and Community Stakeholders			
The risk of COVID-19 being introduced into the school and spreading depends on the health and safety measures taken by schools and the level of COVID-19 spread in the community. Consider the following educational modalities based on community transmission and other health and education risks and benefits.			
COVID-19 Activity	HIGH >350 cases/100K/14 days Test positivity >10% Trends in cases and hospitalizations	MODERATE ~50-350 cases/100K /14 days Test positivity 5-10% Trends in cases and hospitalizations	LOW <50 cases/100K/14 days Test positivity <5% Trends in cases and hospitalizations
Education Modality	<p>Phase in in-person learning in groups of 15 or fewer students for pre-K through grade 5 and those with highest needs.</p> <p>Prioritize Pre-K through grade 3, and students in any grade with disabilities, students living homeless, or those farthest from educational justice.</p> <p>If schools can demonstrate the ability to limit transmission in the school environment, add grades 4-5.</p>	<p>Phase in in-person learning.</p> <p>Prioritize Elementary (pre-K - 5) if they are not already receiving in-person learning, and Middle School.</p> <p>If schools can demonstrate the ability to limit transmission in the school environment, add more high school students when case rates are below about 200/100K/14 days.</p>	<p>Provide in-person learning for all students.</p>
