

Exceptional Family Member Program (EFMP)

on Joint Base Lewis-McChord

The Exceptional Family Member Program (EFMP) supports an all-volunteer force and their families, assigned to JBLM residing both on and off base, by ensuring Family members' medical and educational needs are met.

There are two components of EFMP on every Installation: one Mandatory and one Elective

EFMP Medical: Mandatory

Madigan Army Medical Center

For identification, enrollments, renewals, and assignments.

If you are not assigned to JBLM, EFMP Family Support is happy to provide information and connect you with similar supports in your branch of service and/or in the community. Please contact our group email.

Note

- Army soldier actions and overseas screening starts with your levy packet and your S1
- Air Force family travel member screening starts with Qbase

JBLM CARES is joint partnership between Madigan Army Medical Center Developmental Pediatrics & the JBLM Directorate of Personnel and Family Readiness EFMP to provide transitional autism support treatment and services for those are on waitlists and those with other special needs may be eligible. Contact: your child's primary care provider/PCM

County & School Services

If you have concerns with your child's development, with or without a medical diagnosis, we recommend:

- a) Developmental Screening through your county's Birth to Three Early Intervention Services, (Child: Birth to 3rd Birthday).
Contact: **PierceCountyWA.gov/EI** or Thurston's **SSP2P.org/Early-Intervention**
- b) Special Education Evaluation through your school (For a Child, 3rd Birthday to 12th grade).
Contact: your school principal and psychologist by email/written request.

As you know, being your child's best advocate is coordinating care and effective communication. We recommend sharing information between providers, schools, an agencies so through your efforts we are all on the same page in meeting your family's goals in long term health and well-being. It is our pleasure to support you and collaborate.
