Joint Basing 2005 BRAC Background

BRAC 2005 law established 12 Joint Bases from 26 installations. Key Concepts:

- Relocate *installation management functions* from one base to another; establish *DoD-wide standards for delivery* and *common definitions* of services
- Establish a *Joint Management Oversight Structure (JMOS)* to provide *compliance, dispute resolution, and resource* allocation
- Define *Supporting*, and *Supported* Service on each Joint Base; formalize roles in a *JB Memorandum of Agreement*, signed by the affected Service Vice Chiefs for each Joint Base
