FORCE HEALTH PROTECTION

## Welcome To MEDPROS

The Medical Protection System (MEDPROS) was developed by the AMEDD to track all immunization, medical readiness, and deployability data for all Active and Reserve components of the Army as well as DA Civilians, contractors and others. It is a powerful tool allowing the chain of command to determine the medical and dental readiness of individuals, units, and task forces. Commander's and Medical leaders at various echelons are responsible for the use and implementation of MEDPROS to measure their unit/individual medical readiness status.

The comprehensive Medical Readiness data includes all medical and dental readiness requirements IAW AR 600-8-101. They include immunizations, permanent physical profiles/duty limitations, eyeglasses/inserts, blood type, medical warning tags, personal deployment meds, pregnancy screening, DNA, HIV and dental status among other data elements.

This is a DoD web site. The security accreditation level of this site is Unclassified FOUO and below. Do not

### MEDPROS UPDATES

Latest Message - 2011/01/04  
**Interim Change to LDP Definition in MEDPROS:**

The MEDPROS Program Office approved adding the following text to the existing definition for LDP: "...As an interim solution until more appropriate programming can be implemented, LDP Y may also be used to identify Soldiers who have permanent 3 or 4 in their PULHES serial, have been boarded (awarded Profile Code W or Y), but are still considered non-deployable due to their condition and/or continued need for
