What is ADPAAS?

U.S. Army Disaster Personnel Accountability and Assessment System (ADPAAS) standardizes a method for the Army to account, assess, manage, and monitor the recovery process for personnel and their families affected and/or scattered by a widespread catastrophic event. ADPAAS provides valuable information to all levels of the Army chain of command, allowing commanders to make strategic decisions which facilitate a return to stability.

ADPAAS allows Army Personnel to do the following:

- ★ Report Accounting Status
- ★ Update Contact
- ★ Location Information
- ★ Complete Needs Assessment
- ★ View Reference Information
