ADDITIONAL INFORMATION

			March 15: Target 9-12 Hybrid
--	--	--	------------------------------

\*Please see the district/school website to get specific information

<b>For whom should your community provide in person learning?</b> For School Administrators, Local Health Officers, and Community Stakeholders			
The risk of COVID-19 being introduced into the school and spreading depends on the health and safety measures taken by schools and the level of COVID-19 spread in the community. <b>Consider the following educational modalities based on community transmission and other health and education risks and benefits.</b>			
COVID-19 Activity	<b>HIGH</b> >350 cases/100K/14 days Test positivity >10% Trends in cases and hospitalizations	<b>MODERATE</b> ~50-350 cases/100K /14 days Test positivity 5-10% Trends in cases and hospitalizations	<b>LOW</b> <50 cases/100K/14 days Test positivity <5% Trends in cases and hospitalizations
Education Modality	Phase in in-person learning in groups of 15 or fewer students for pre-K through grade 5 and those with highest needs.  Prioritize Pre-K through grade 3, and students in any grade with disabilities, students living homeless, or those farthest from educational justice.  If schools can demonstrate the ability to limit transmission in the school environment, add grades 4-5.	Phase in in-person learning. Prioritize Elementary (pre-K - 5) if they are not already receiving in-person learning, and Middle School.  If schools can demonstrate the ability to limit transmission in the school environment, add more high school students when case rates are below about 200/100K/14 days.	Provide in-person learning for all students.
